Photography Credit: Sally Vargas When I think of summertime, I think of breakfast on the porch and a warm, homemade buttermilk biscuit straight from the oven. But I also think of back-yard picnics and grilled meats. I have a thing about grilled meats and picnics. Perhaps it's that I am a huge fan of peaches and fresh, summery flavors. I am also a fan of corn on the cob and grilled corn with barbecue sauce, just to name a couple of summertime favorites. Our Favorite Videos Get Recipe » A little over a month ago I was on vacation with my parents and the three of us happened upon a little roadside diner nestled between two old-time farms. We opted for the breakfast, and I had a little coffee with my orange juice and a sweet little biscuit. It was warm, buttermilk biscuits straight from the oven and topped with a grilled ham and cheese sandwich. I couldn't get the little bite of sandwich off my mind. I think it was the warm flavor of the grilled ham and the gooey cheese. I had to have those flavors at home, so I decided to come up with my own version. If you're looking for a different kind of breakfast for summer, I've got just the recipe for you. Instead of the grilled ham and cheese, you'll be making a griddled egg and cheese sandwich. You would have thought it obvious that this is a very serious crime in the Victorian age, that we had serious crime in the modern age. Then again, in a great deal of our fiction, we have also taken for granted that many things that are considered to be criminal are not crimes. Now, of course, we are not saying that James Bond is a man without scruples, but there is something more to this than simply a series of adventures for a smart, hardened ex-agent, and it's got to do with the world that he has had to make his own since he left the Service, since the events of the previous books, since he became a freelance agent, since he became a gentleman. It's a world that is much more complicated than that of the fictional world he has so frequently inhabited, and one that is heavily influenced by the history and the philosophy of crime, as it appears in his own time. So we have a gentleman, not a gambler, as he is supposed to be in the present. And his antecedents are a little different from that of James Bond. For one thing, he has no money. In fact, he has absolutely none to start with. He hasn't had any for some time, since the war. And he's been in the diplomatic service, you may remember, and his job is that he's second secretary to the embassy in Vienna.
