I paid \$3\$4 and have been playing it non stop ever since, I'm not sure if I want to invest in the full game, but what it has is pretty good. Xenoblade Chronicles 2, Like Xenoblade 1, is a JRPG created by Monolith Soft and Nintendo and it's their best so far. The World and story is very breathtaking and every character is interesting to explore. Never played The Legend of Zelda: A Link to the Past but the NG+ hasn't missed a beat in my opinion. _____ Quote: Originally Posted by Midwak "I love feminine dances, such as Ode to Joy, and Cole theme and Tempo Pu. That was a hugely overworked model, without the need for
custom skinning, and without the complexity of the custom
textures. The possibilities for modding are quite nice, I should

I don't know what that will result in. In the meantime, I've
continued on with the tutorial. I will be updating it here with
