- The world of the game is entirely created for action RPG. The game's world spans across a huge expanse from the north to the south and east to west. The world consists of a wide variety of areas, such as a vast field, a huge forest, a gigantic dungeon, and a huge city. If you go to a certain location, the atmosphere may differ completely from place to place, and the story you experience may depend on where you are.
 - Use battle skills to fight enemies and acquire items in the game's massive dungeons. You can effectively fight against bosses by taking advantage of the game's battle system and acquire items by defeating them. Fighting and battles are possible in all areas, and quests are given so you can explore this vast world.
 - Create your own character and join in the game's online play. The game allows you to create a character freely, including the name, appearance, voice, and background. You can also freely combine weapons, armor, and magic, but at the risk of losing items.
 - An epic and multilayered story born from a myth. The game's story is so rich and deep that even if you play alone, you'll find yourself immersed in the action that takes place. The game world is so large and the story unfolds smoothly as you progress.
 - Accumulated experience is used to improve the items and skills used in battles and ensure that you can obtain powerful equipment. Gaining experience, acquiring items, and improving your equipment are possible throughout the game. However, this is not easy. You need to be careful and pay attention to the unique conditions of the game world.
 - A vast world that suits your play style. You can customize your character's appearance, choose weapons, and build your own style of play. Thus you can enjoy the game as you see fit.
- ABOUT BLACK TUSK • A million-word story of the battle between good and evil. The action RPG Black Tusk is a game that tells a story of the blacksmith Nesha, who ends up becoming a hero, and the evil knight Rax, who is the master of the dark. The game's story is so rich and deep that it will keep you interested for more than 3 hours.

Online play – travel together with other players! Asynchronous play – enter the game world with other players simultaneously

RUINLAND is a fantasy action RPG game that was developed by Funomena, a French video game developer based out of Paris. The game was initially released for the Windows in 2014 as its first title, with a Nintendo 3DS release subsequently following in Japan and Europe. The game has received mostly positive reviews from critics, primarily for its combat system and strong technical components. RUINLAND is a fast-paced turn-based fantasy game that combines action elements and RPG elements, and players take on the role of a Tarnished Lord—a strong, heroic warrior and leader within the forces of the Elden Ring. The game features a medieval setting with adventure elements, set in the Lands Between, a realm that lies between the World of Light and the World of Shadows. Here, players travel with an army of up to 40 units, using magical abilities to dispatch dungeon invaders and level up as a character. An asynchronous online element allows players to feel like a Tarnished Lord even when they are playing on their own. RUINLAND also features an easy-to-learn, intuitive combat system that the player can pick up immediately. Players can also create their own custom class build or forge one from the game’s five base classes. Players can also participate in other online features such as guilds and asynchronous combat. Players can also team up with other players by joining a guild to fight against enemies. In addition, players can earn experience, buy items and craft items to build their own battle skills. The game also features a tutorial system that helps players learn the basics. RUINLAND can be downloaded as a standalone Windows game for \$29.99 or as a three-game bundle with Warrior of Light for \$49.99. Since it is a downloaded title, RUINLAND does not require additional hardware to be played. The game is currently available for the following platforms: Windows, Nintendo 3DS, macOS, and Linux. Additionally, there will be a physical edition for the Nintendo 3DS and PlayStation 4 that releases in Europe in early 2017. “We are very excited to bring our first self-published title RUINLAND to the PlayStation 4 in Europe,” said Marc Ficarra, CEO of Funomena. “We are still studying the console market, but many titles from our lineup—such as our adventure game TUMBLE, our RPG SAV

Walking the Labyrinth Walking the Labyrinth is an event, created by the Mission of Saint Joseph, that unites pilgrims of all backgrounds to life-changing experience with the wisdom of the ages. Each year (except for the winter) thousands of pilgrims gather for the opening of the Meditation Trail, a week-long series of contemplative retreats. Over the five days, a pilgrimage of solidarity is formed so that all can immerse themselves in the peace and beauty of the sacred healing paths. Most of the works of art featured in the Museum are housed in the fields and collections of the Catholic community of the Mission of St. Joseph. For over 100 years the Mission and its surrounding properties have been the place of prayer and pilgrimage for people from all over the world. The Art Museum, situated on the campus of the Mission, was founded in 1955. Located on the banks of Lake Michigan, the twenty-one galleries of the museum are filled with drawings, paintings and sculptures representing the finest art from the United States and Europe. Along with Gallery One (special displays) and the Education Center, the museum hosts weekly art walks where patrons can discover and purchase original art and appreciate common and modern art. About Labyrinth Centers Walking the Labyrinth is presented by the Labyrinth Centers of the Holy Father, the Most Rev. Michael Joseph Pallotta, Bishop of Rensselaer, Troy and Holy Cross Diocese. Each year the same event takes place in Rensselaer, Troy, Dundee, New York and in the Diocesan Headquarters at Croton-on-Hudson. There are also labyrinths located all over the state of New York. In fact, these centers are spreading all over the United States, in cities like: Los Angeles (California); Detroit, Chicago (Illinois); Philadelphia, Wilmington, N.C. (North Carolina); Boston, Providence and Lexington, Mass. (Massachusetts); Seattle, Bellevue, Wash., and Eau Claire, Wisconsin (Wisconsin); Denver, Colo.; Oklahoma City
