All Rights ReservedQ: How can we make ImageButton with rounded corners? I want to make an ImageButton so that when it is pressed the center of the button becomes darker and it has a 5px radius of curvature. I want to make it so that it looks like it has rounded corners. A: If this is just to make the corner area darker, there is no reason to use an ImageButton. If you'd just like to make the pressed area darker, or change it's other visual properties, you should use a StateListDrawable. You can create one of these, and use the selector to conditionally change the color of the entire button, or change one of the states to make the selected area a different color. Where x_l is a rounded rectangle that is configured to be dark, and button_pressed_x_l and button_default_x_l are the original normal and default images. A: Add a xml @drawable/rounded_box in your resources as rounded_box.xml

(Translated by HYYZ. No copyright violation. Used with permission from @dryanshi. Do NOT repost) (Don't steal it to steal my Ingame name at least) Ok, this was two days late. You know what's funny? A lot of reviews on Steam just say "Buy this game!" The reason for this is because people like you give low ratings if the game was bad. When they know they can't spend money on it, that's why. (I think the review is taken out of place, so I'll just write this as an explanation) So this is review 1.2, but this is a review of an expansion pack. This game has been having a lot of updates lately. 1) 1.1 In this update, I think they changed the version number from "1.1" to "2.0". They fixed a lot of issues and added a lot of things. This is a great balance for the game and I think fans can look forward to it. (This is because the 1.1 version was unstable and it caused problems for users) 2) 1.2 This is a mega update for the game. They added the new main scenario called "The Tarnished Rebirth". It's basically a story that starts when you go to the Tower of Ulgos after finishing the main scenario. The scenario is great and it is set up as an anime. (It's a story of a person's first impression.) 3) 1.3 So, this is a story of a person who is attached to the game. It is a short story and they included scenes and drawings. (The game is almost over now. I hope you find this) 4) 1.4 The multiplayer battle system has been improved with the new update and they added two new jobs, or characters in the game. These jobs are "High Sorcerer" and "High Magician". The new jobs have a bunch of new skills and magic skills. The difficulty of the game seems to have been increased and it has been built up with updates. (The game is over now) bff6bb2d33
